

# UNIFIED MILITARY ANALYTICS

## Dashboard Storyboard

### Milestone 2 – Dashboard Planning and Prototyping

**Project Name:**

Unified Military Analytics

**Prepared By:**

Sakshi Sutar

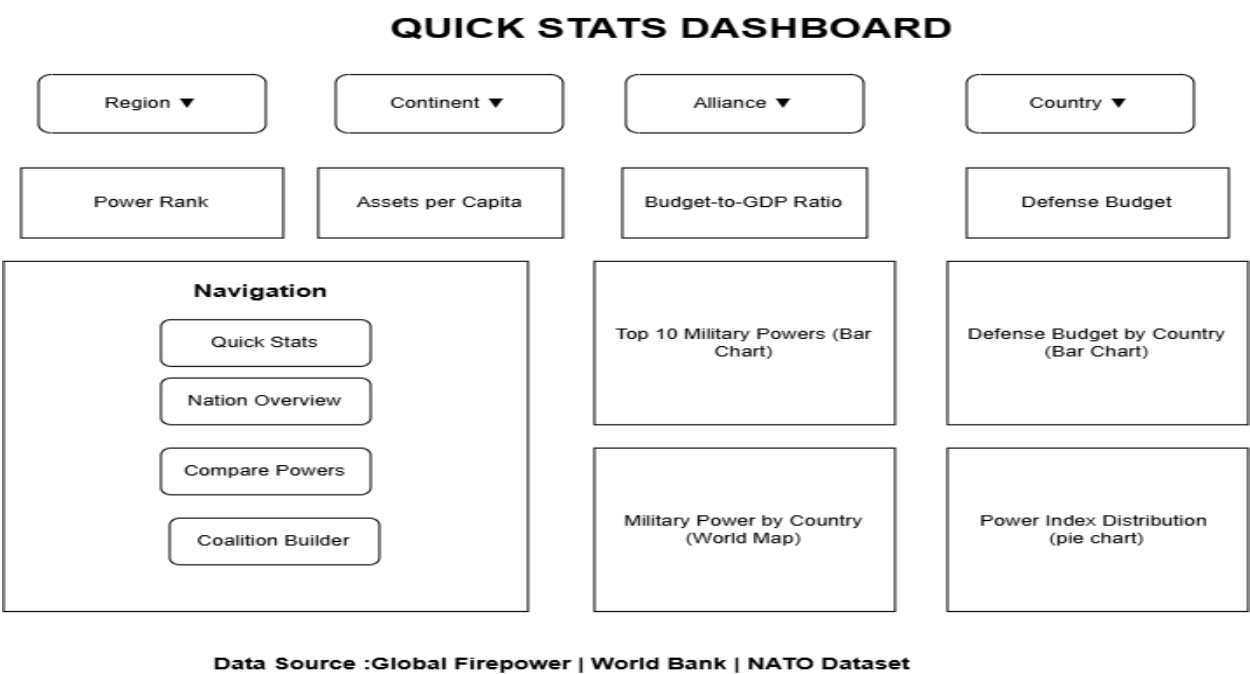

**Objective:**

To design dashboard wireframes (prototypes) and storyboard for a military analytics application. The storyboard presents the planned dashboard layouts, KPIs, filters, visualizations, and navigation flow before developing the working dashboards in Power BI.

**Tools Used:**

- Draw.io (Dashboard Wireframes)
- Power BI (Dashboard Development)
- Microsoft Word (Storyboard Documentation)

# Dashboard 1 – Quick Stats

## Purpose

The **Quick Stats** dashboard provides a high-level overview of global military strength and key defense indicators. It enables users to quickly identify top military powers, compare defense budgets, and analyze military performance through interactive visualizations.

## Dashboard Components

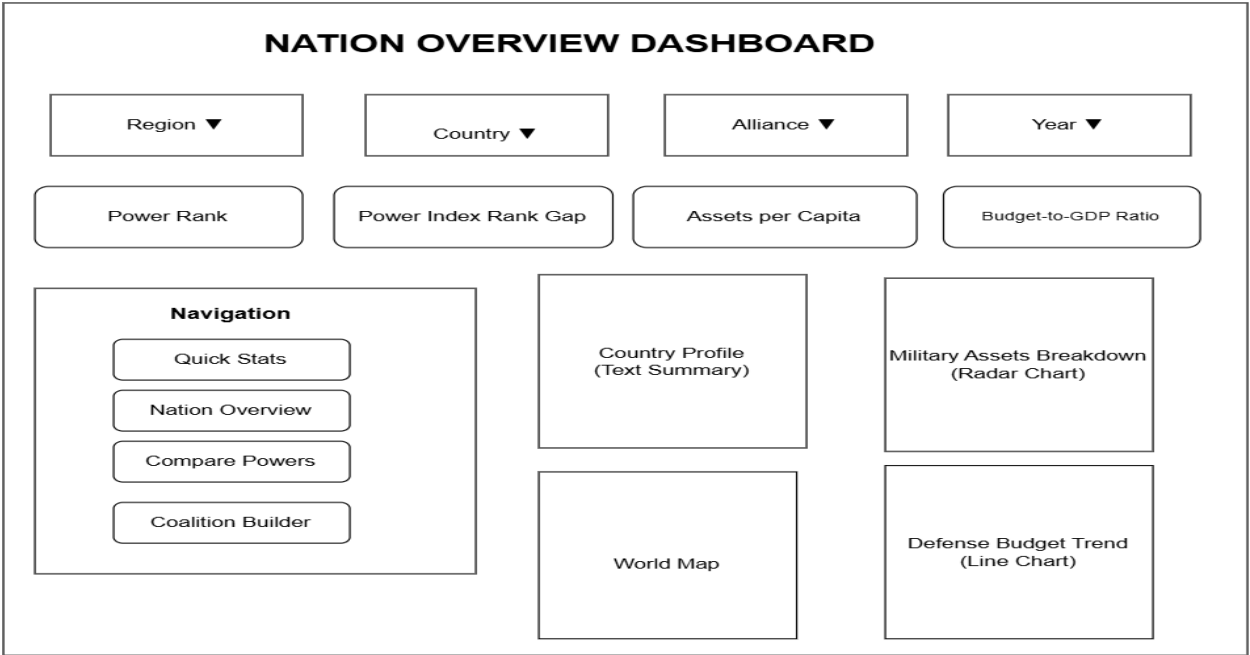

### Filters

- Region
- Continent
- Alliance
- Country

### KPI Cards

- Power Rank
- Assets per Capita
- Budget-to-GDP Ratio
- Defense Budge

## Dashboard 2 – Nation Overview

### Purpose

The **Nation Overview** dashboard provides a detailed military profile of a selected country. It enables users to analyze military strength, defense expenditure, key performance indicators, and military assets through interactive charts and visualizations.

### Dashboard Components

#### Filters

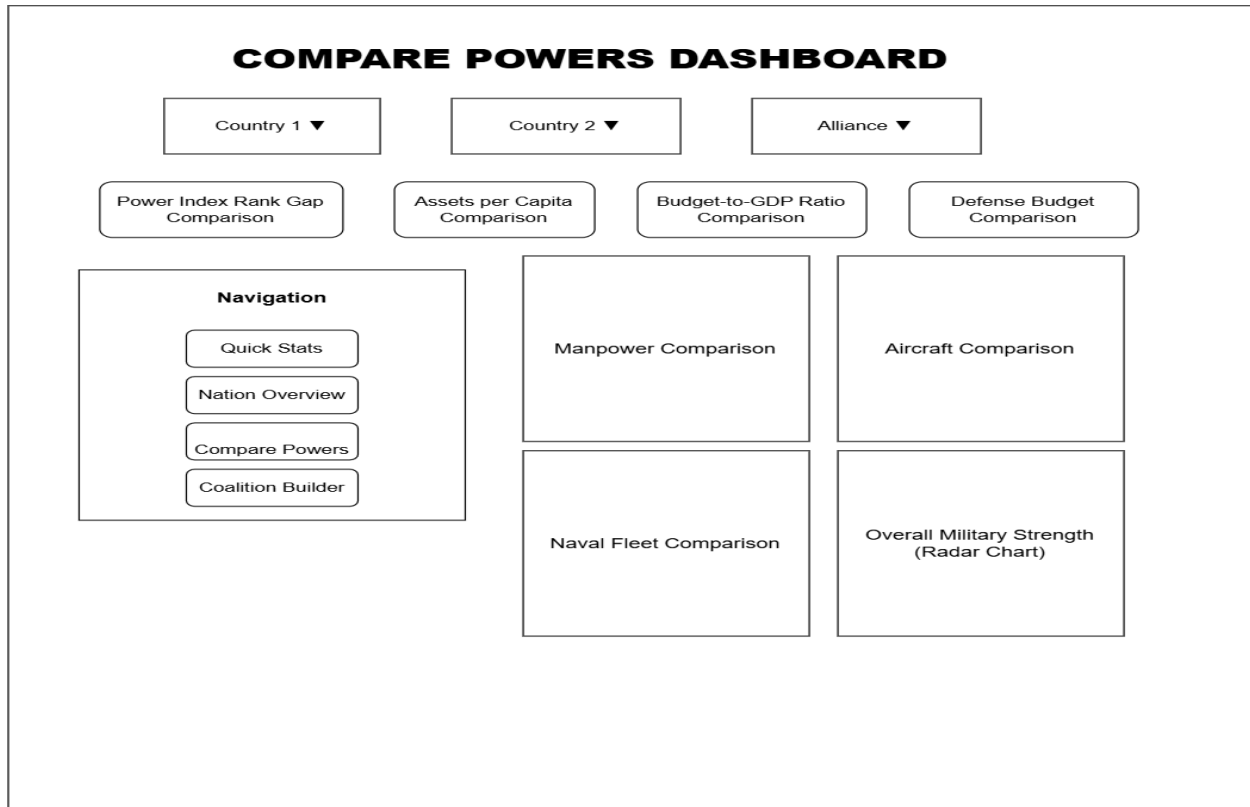

- Region
- Country
- Alliance
- Year

#### KPI Cards

- Power Rank
- Power Index Rank Gap
- Assets per Capita

- Budget-to-GDP Ratio

## Dashboard 3 – Compare Powers

### Purpose

The **Compare Powers** dashboard enables users to compare the military capabilities of any two selected countries. It provides a side-by-side analysis of key defense metrics, helping users identify strengths and differences through interactive visualizations and KPI comparisons.

### Dashboard Components

#### Filters

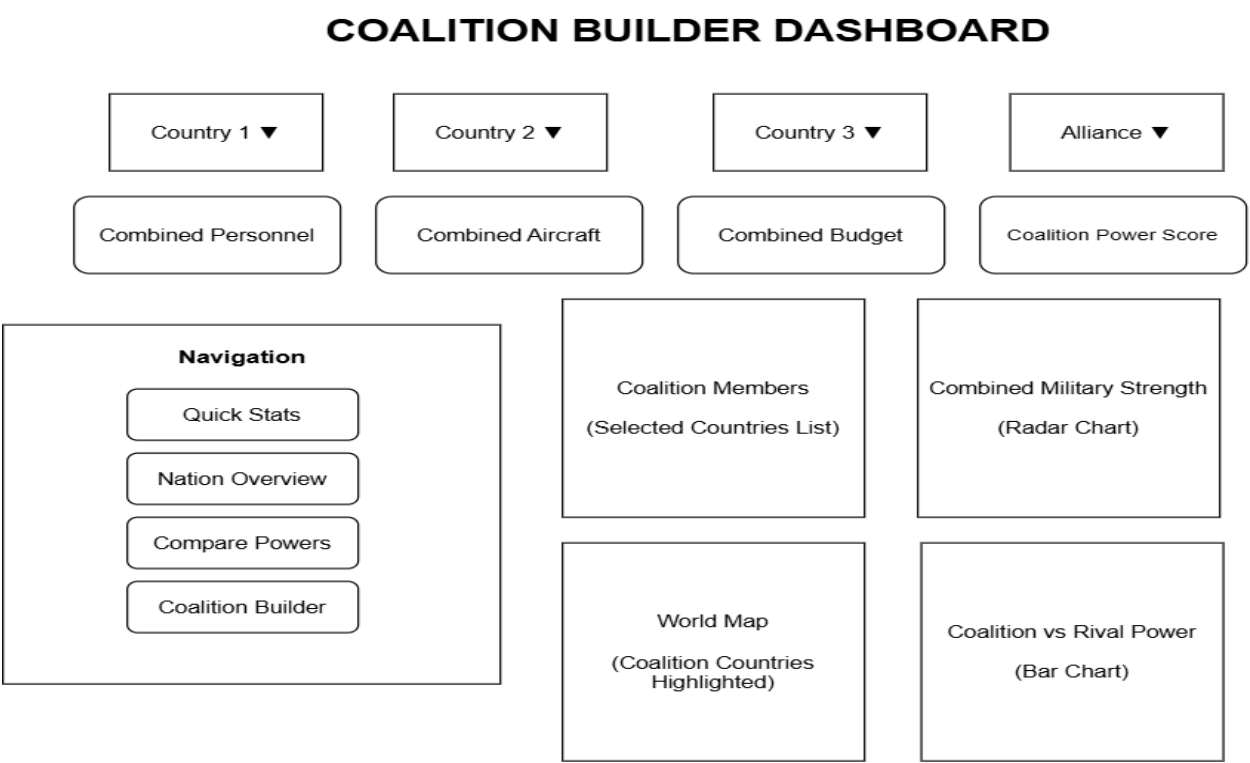

- Country 1
- Country 2
- Alliance

#### KPI Cards

- Power Index Rank Gap Comparison
- Assets per Capita Comparison
- Budget-to-GDP Ratio Comparison
- Defense Budget Comparison

## Dashboard 4 – Coalition Builder

S

### Purpose

The **Coalition Builder** dashboard enables users to create a coalition by selecting multiple countries and analyze their combined military capabilities. It provides aggregated military metrics and compares the selected coalition against a rival coalition or a reference country through interactive visualizations.

### Dashboard Components

#### Filters

- Country 1
- Country 2
- Country 3
- Alliance

## **KPI Cards**

- Combined Personnel
- Combined Aircraft
- Combined Budget
- Coalition Power Score
