

STORYBOARD

Global Military Firepower 2025

Dashboard Design Documentation

A Data Analytics Project - Unified Military Analytics and Comparison Dashboard

Prepared as a University Project Submission

2026

Wireframe 1: Quick Stats

Purpose

The **Quick Stats** dashboard serves as the landing page of the application, providing a high-level overview of global military power across all **145 countries**. It enables users to quickly identify worldwide trends and leading nations before exploring detailed country-level insights.

Layout Description

Header Bar

- Displays the dashboard title “Global Military Firepower 2025 – Quick Stats”.
- Shows “Dashboard 1 of 4” to indicate the user's current position within the dashboard suite.

Navigation Panel

- Persistent navigation menu containing:
 - Quick Stats
 - Nation Overview
 - Compare Powers
 - Coalition Builder
- The Quick Stats option is highlighted to indicate the active dashboard.
- Navigation remains consistent across all dashboards while preserving selected filters.

Global Filters

- Three dropdown filters:
 - Region
 - Continent
 - Alliance
- All visualizations update dynamically based on the selected filter values.

Key Performance Indicators

Four KPI cards summarize the most important global statistics:

- Highest Ranked Country
- Total Countries Tracked (145)
- Total Military Assets
- Average Budget-to-GDP Ratio

Visual Analytics

- Vertical bar chart displaying the Top 5 Countries by Purchasing Power Parity.
- Horizontal bar chart showing the Top 5 Countries by Military Assets.
- World choropleth map illustrating military rankings through color intensity.
- Donut charts presenting:
 - Top 5 Defense Budgets
 - Top 5 Air Fleet Strength

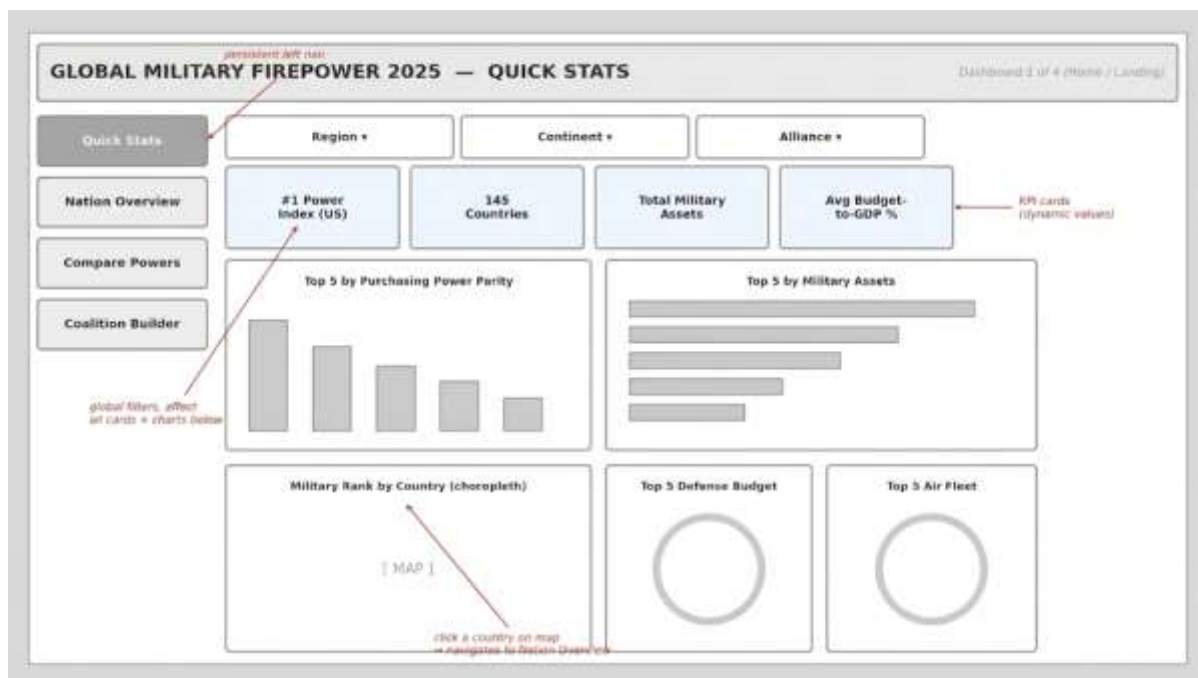

User Interaction

Selecting a country from the world map automatically opens the Nation Overview dashboard with the selected country preloaded, providing seamless drill-down navigation.

Summary

The Quick Stats dashboard serves as the landing page of the application. It provides a high-level overview of military power across all 145 countries. Global filters allow users to analyze data by region, continent, and alliance. KPI cards highlight key worldwide statistics at a glance. Charts and maps present the top-performing countries using different visualizations. Users can quickly identify global military trends before exploring detailed insights. Clicking a country on the map opens its detailed profile in the Nation Overview dashboard.

Quick Stats Dashboard Wireframe

Wireframe 2: Nation Overview

Purpose

The **Nation Overview** dashboard provides a detailed profile of an individual country, allowing users to examine its military capabilities, economic indicators, and strategic strengths in depth.

Layout Description

Header Bar

- Displays the dashboard title.
- Indicates Dashboard 2 of 4.

Navigation Panel

- Persistent navigation with Nation Overview highlighted.

Country Selector

- Searchable dropdown allowing users to select any of the 145 countries.
- Automatically populated when arriving from the Quick Stats dashboard.

Headline Summary

Displays essential information including:

- Global Rank
- Alliance Membership
- Region
- Continent

Country Profile

Contains descriptive information such as:

- National Flag
- Capital City
- Population
- GDP
- Alliance Badge

Capability Radar Chart

Visualizes normalized military capabilities across multiple dimensions:

- Manpower
- Air Power

- Land Power
- Naval Power
- Defense Budget

Country KPIs

Three engineered metrics are displayed:

- Power Index Rank Gap
- Assets per Capita
- Budget-to-GDP Percentage

Detailed Analysis

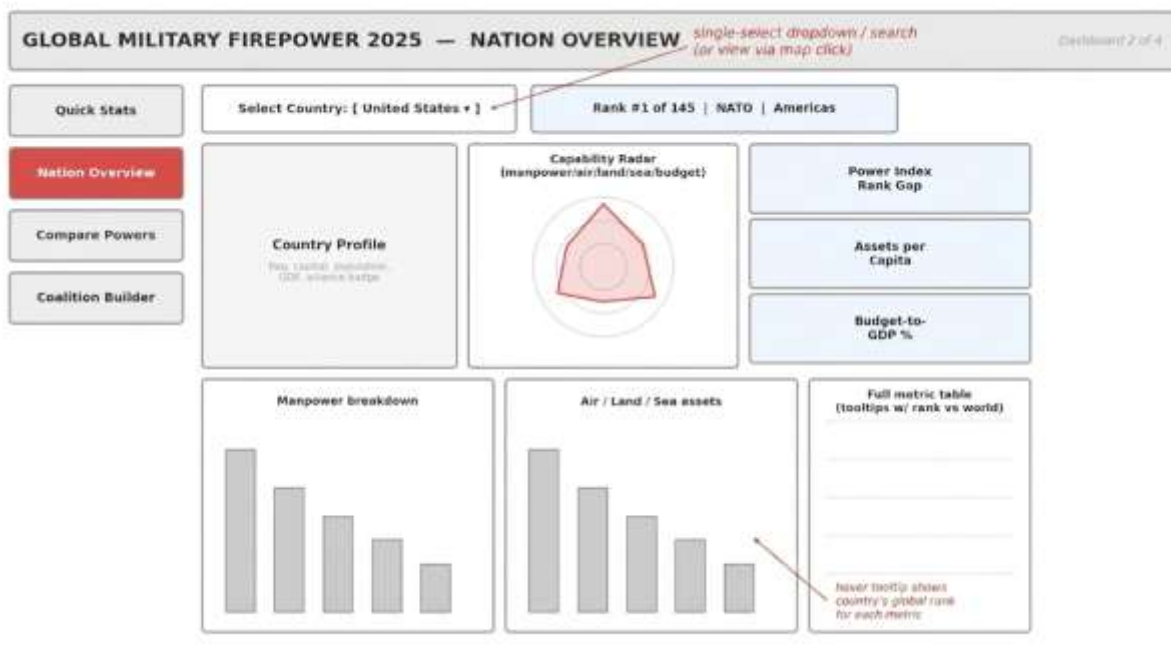

Includes:

- Manpower Breakdown
- Air, Land, and Naval Asset Comparison
- Scrollable metrics table containing remaining military indicators

User Interaction

Hovering over charts or table entries reveals the country's global ranking for that specific metric, providing additional analytical context.

Nation Overview Dashboard Wireframe

Wireframe 3: Compare Powers

Purpose

The **Compare Powers** dashboard enables users to compare the military capabilities of any two countries through synchronized visualizations and performance indicators.

Layout Description

Header Bar

- Displays Dashboard 3 of 4.

Navigation Panel

- Persistent menu with Compare Powers highlighted.

Country Selection

Two independent dropdown selectors allow users to choose

- Country A
- Country B

A Swap button exchanges both selections instantly.

Comparison KPI Scoreboard

Displays side-by-side values for:

- Power Index
- Budget-to-GDP Ratio
- Assets per Capita
- Rank Gap

Comparative Visualizations

Four tornado-style comparison charts present:

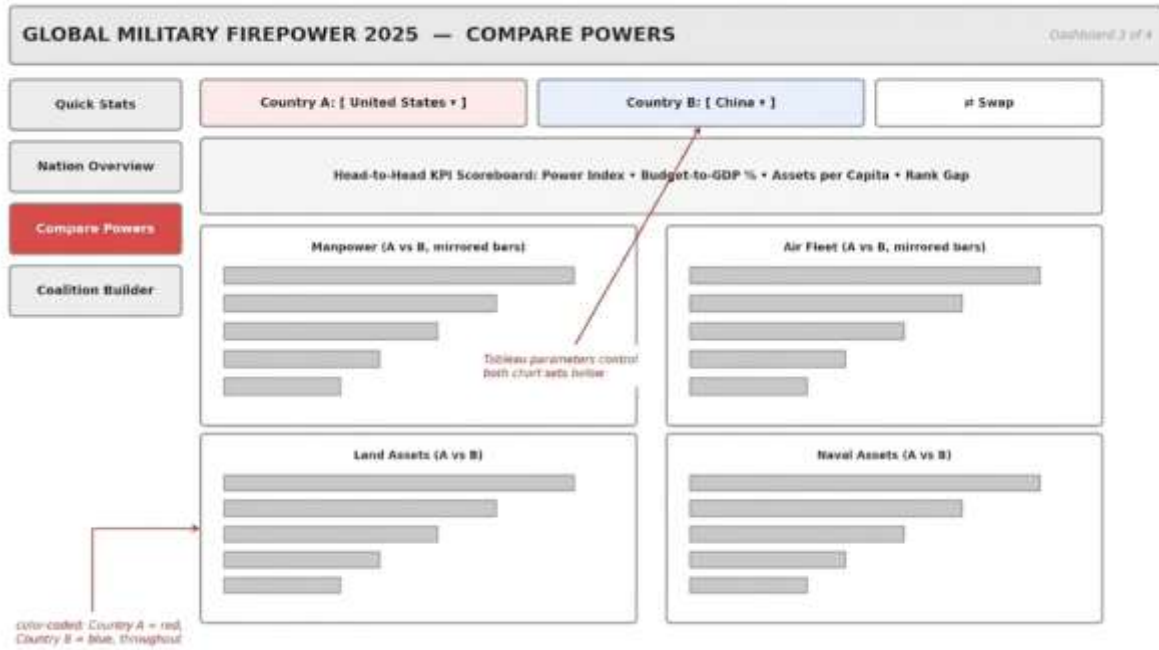

- Manpower
- Air Fleet
- Land Assets
- Naval Assets

Country A is consistently represented using **red**, while Country B uses **blue**, ensuring clear visual differentiation.

User Interaction

Changing either country selector immediately refreshes all KPI cards and comparison charts without requiring a page reload.

Compare Powers Dashboard Wireframe

Wireframe 4: Coalition Builder

Purpose

The **Coalition Builder** dashboard provides an interactive simulation environment where users can create military coalitions by combining multiple countries and comparing their collective capabilities against a selected reference nation or alliance.

Layout Description

Header Bar

- Displays Dashboard 4 of 4.

Navigation Panel

- Persistent menu with Coalition Builder highlighted.

Coalition Selector

A multi-select control enables users to add or remove multiple countries from the coalition.

Preset Selection

Quick presets allow users to load predefined alliances or regional groups such as:

- NATO
- Regional Alliances
- Non-Aligned Countries

Reference Selector

Allows users to choose a benchmark country or alliance for comparison.

Aggregated KPIs

Displays combined coalition statistics:

- Total Defense Budget
- Total Personnel
- Total Aircraft
- Combined Power Index

Comparison Visualizations

Includes:

- Stacked bar chart comparing coalition assets with the selected reference.
- Radar chart comparing average military capability profiles.

Coalition Details

A member table displays:

- Coalition members
- Adjustable contribution weights

A world map highlights the geographical distribution of coalition members.

User Interaction

Adding or removing coalition members instantly recalculates every KPI, chart, and table, allowing users to explore different strategic coalition scenarios dynamically.
